The Boston Committee for CARE

As we prepare to commemorate CARE’s 75th anniversary in 2020, we see a unique moment to combine our anniversary with a celebration of Boston as a global city and international hub that brings together people from diverse backgrounds and cultures representing the best in global health, international business, philanthropy, and beyond.

To commemorate this important anniversary and prepare for the road ahead, CARE is convening a consortium of committed citizens in the greater Boston area through the Boston Committee for CARE. We invite you to join the Committee and work shoulder-to-shoulder with CARE Boston to build resources and awareness that enable us to implement relevant, sustainable solutions that fight global poverty.

The Boston Committee for CARE will be part of a nationwide network of committees that create a unified force to lead and energize our community around a shared vision of investing in women and girls as a force for change.

At this important moment for CARE – and for the world – we hope you will consider joining this group of committed global citizens in Boston. With your help, we will lead and fuel a global movement.

Why CARE?

• Mission driven: CARE works around the globe to save lives, defeat poverty and achieve social justice. This is our mission statement and our unwavering commitment to the betterment of humanity.
• Experience: CARE has been a leader and standard-bearer in development for more than 70 years. As global needs have shifted, CARE has been at the forefront of adapting its operating model for both broad impact and lasting change.
• Presence: Our presence in more than 90 countries gives us the ability to mobilize and scale programs that work, as well as critical access in emergencies or conflict situations.

Our Commitment

CARE is committed to affecting the lives of 200 million people by addressing four key challenges in the world:

• emergency support
• education and dignified work for women and girls
• sustainable and nutritious food for vulnerable families
• health for women and girls
Membership

Join the Committee as a Member
with a contribution of $30,000/3 years. ($10,000 per year)

Benefits

**Boston Committee for CARE** member benefits include intimate and meaningful access to CARE programming and leadership:

- Membership and networking opportunities (2–3 annually) in Boston that feature CARE’s executive and field leaders.
- An invitation to travel with CARE to the field each year to witness the impact of your support firsthand.
- A national convening of all Committees for CARE at the annual CARE National Conference, with special VIP events and a members-only strategy meeting with CARE President and CEO Michelle Nunn.

Responsibilities

- **Serve a three-year renewable term** and provide your name to the Boston Committee for CARE’s membership roster.
- **In partnership with CARE, host speakers and discussions** that foster awareness of global trends and challenges in fighting global poverty and promote opportunities for engaging with CARE on these issues.
- **Advance a commitment** to fighting global poverty within your network of family, friends and colleagues.
